

2025 COMMUNITY PARTNERS PROGRAM

The Evans Course at Canal Shores has always been about community. For over 100 years, Canal Shores has provided accessible and affordable golf for all, open green space for joggers, dog walkers, bird watchers and more recently concert goers. We are the largest open green space in Evanston and we receive ZERO tax payers dollars and rely on golf revenue and generous donors to make our operation budget each year.

So how can you help as a local business or corporation?

We are pleased to introduce our **new Community Partner Program** where you can show your support for our local gem and in exchange receive exposure for your brand and golf benefits. Please see the below levels of support. We hope you will join us to ensure our beloved course and new youth development programs with Evans Scholars and First Tee, as well as The Golf Practice will be around for another 100 years!

Thank you for supporting the gem in our backyard.
